# Rahul Anand

Leader | Team Enabler | Avid Learner

New York, New York, United States

## Summary

Technology executive with 20+ years of experience building and scaling global engineering, data, and platform organizations.

Proven track record of partnering with C-suite executives to deliver enterprise-scale data platforms, AI-driven automation, and advanced analytics that generate multimillion-dollar revenue growth and significant cost efficiencies. Known for strategic planning, operating model design, talent development, and execution at scale across highly regulated, complex enterprises.

An avid learner and strong technologist at heart. Passionate about building cohesive agile teams and creating high performing organizations.

A leader with disciplined focus and attention to detail with strong analytical skills to deliver practical, business-driven solutions.

A repeat offender of challenging status-quo to bring improvements in existing solutions through automation and simplification!

## Outcomes Delivered (selective):

- Established agile team organization as Head of Data Platform and scaled it to 20+ members
- Organization wide data platform with 30+ connected business datasets
- Established Data Governance practices and chaired the Data Governance Committee
- Executed Data & Cloud transformations - Snowflake, Databricks, Collibra, Kubernetes, AWS, GCP
- Effectively managed key vendor relations and optimized costs
- Head of Department with \$5.5M+ global operations
- Delivered direct cost savings of \$3.5M+ through automations, and system replacements
- Significantly improved data uptime and availability from 80% to 99.5%

### Areas of Expertise:

- Global Engineering & Platform Leadership
  - Enterprise Data Platforms & Connected Systems
  - Establish world-class agile teams from zero to scale
  - Proven Agile practices for guaranteed business outcomes
  - AI-Driven Automation bringing practical business value
  - Digital Transformation, System Simplification & Cloud Modernization
  - Data Governance for Privacy, Security & Regulatory Compliance
  - Revenue Growth and Customer Retention
  - Cross-Functional Leadership in Complex Enterprise Environments
  - Turning data into trusted, decision-ready insights that unlock business value
  - Enterprise grade SaaS Metrics
  - Hands-on Coding (Python, Java, Scala, SQL, DBT)
-
